

# Ag. Nikolaos WWTP Upgrade & Expansion

Project Photo Documentation

---

Engineering inspection, installation, testing and commissioning documentation.

# 1. Inspection of WWTP Site and Overall Project Overview

General inspection, coordination and supervision of construction works, including monitoring of mechanical, electrical and compact treatment system installations.

---

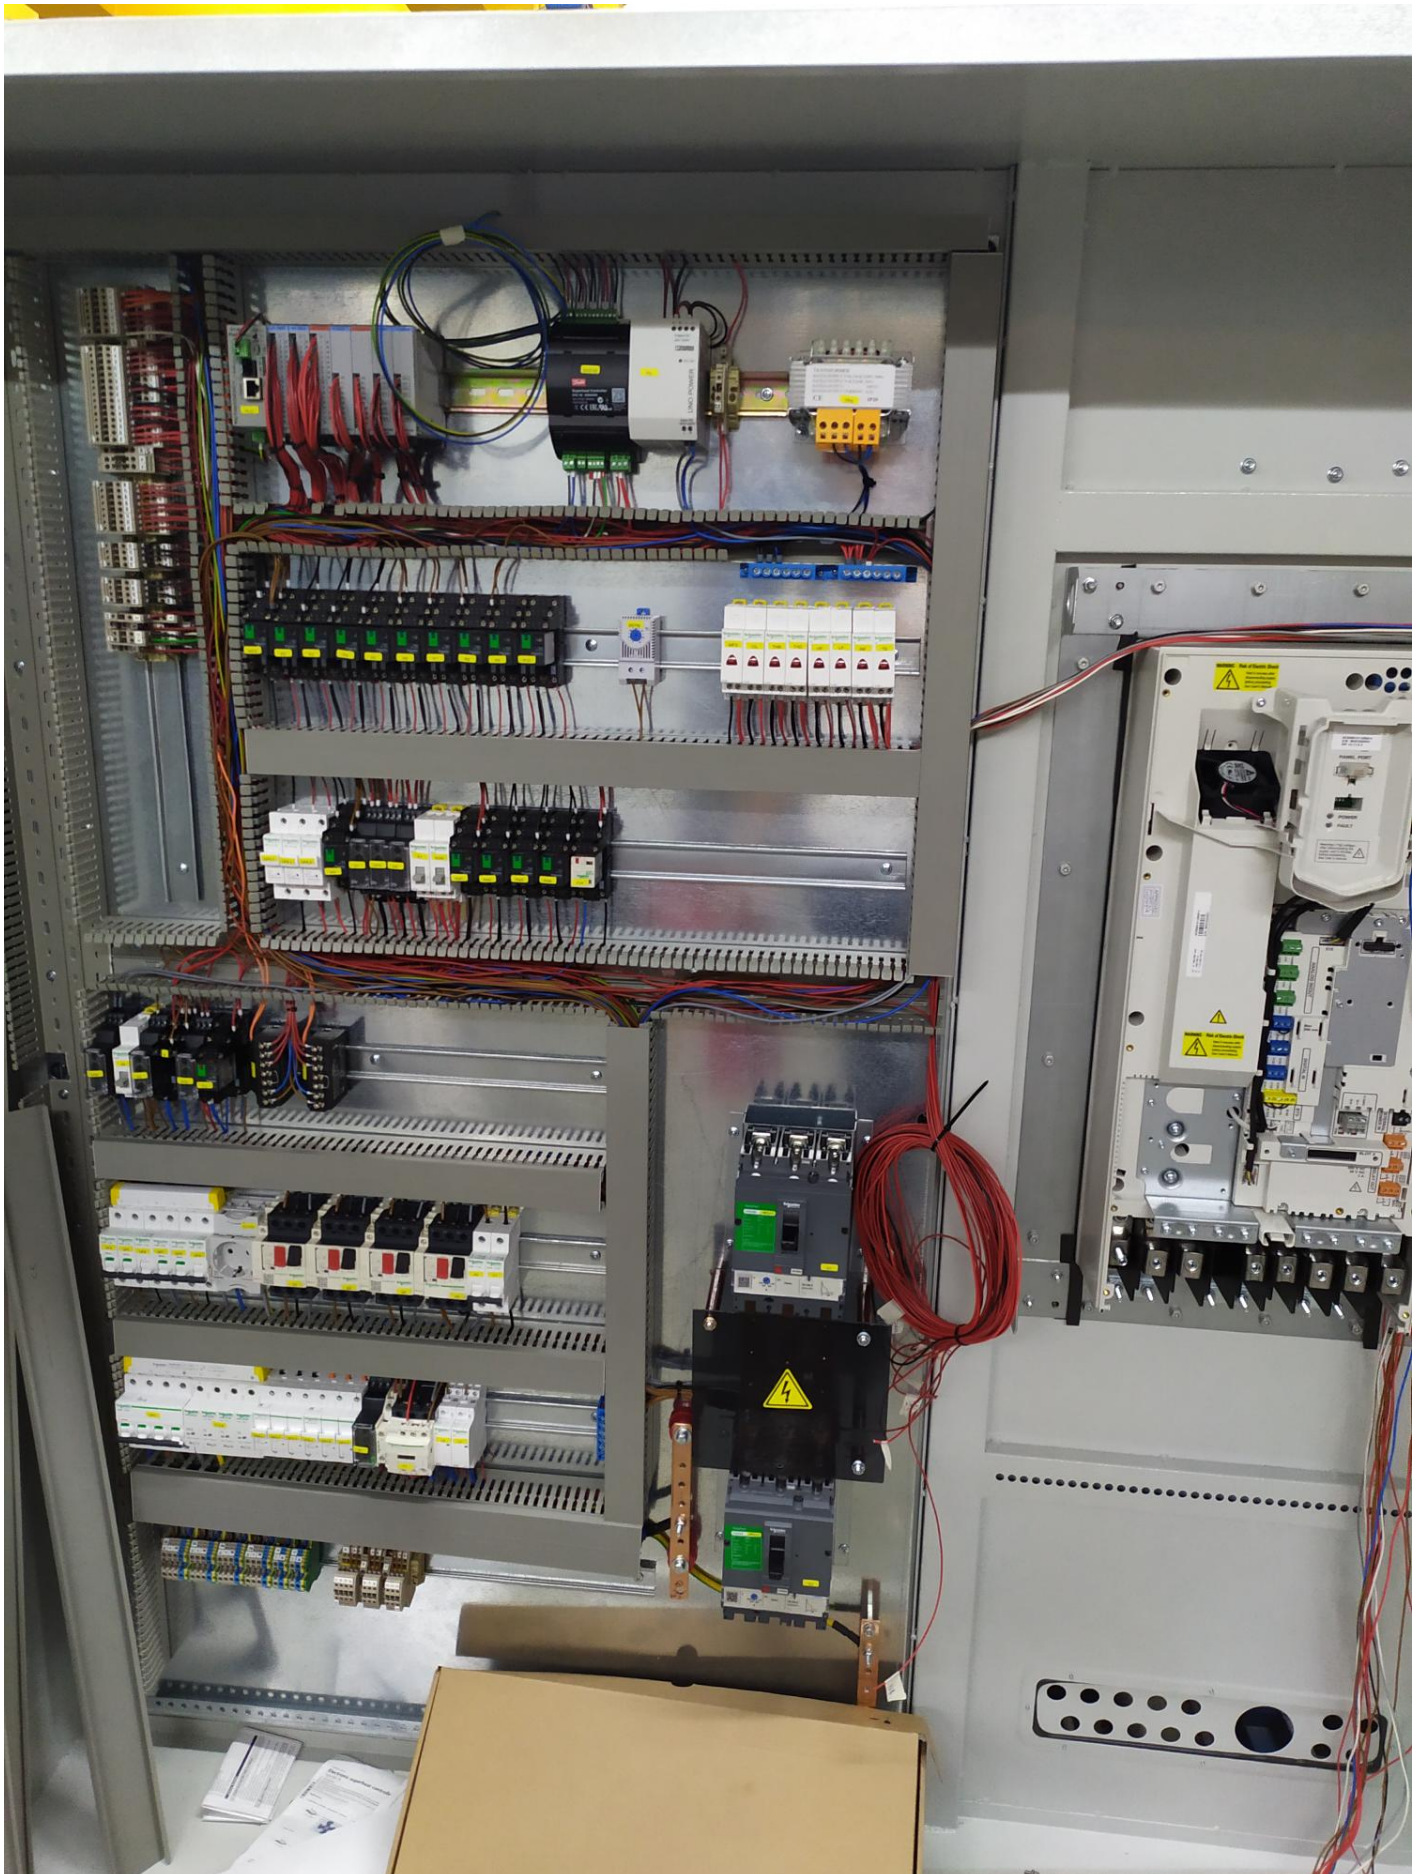

## 2. Electrical Panels & Automation

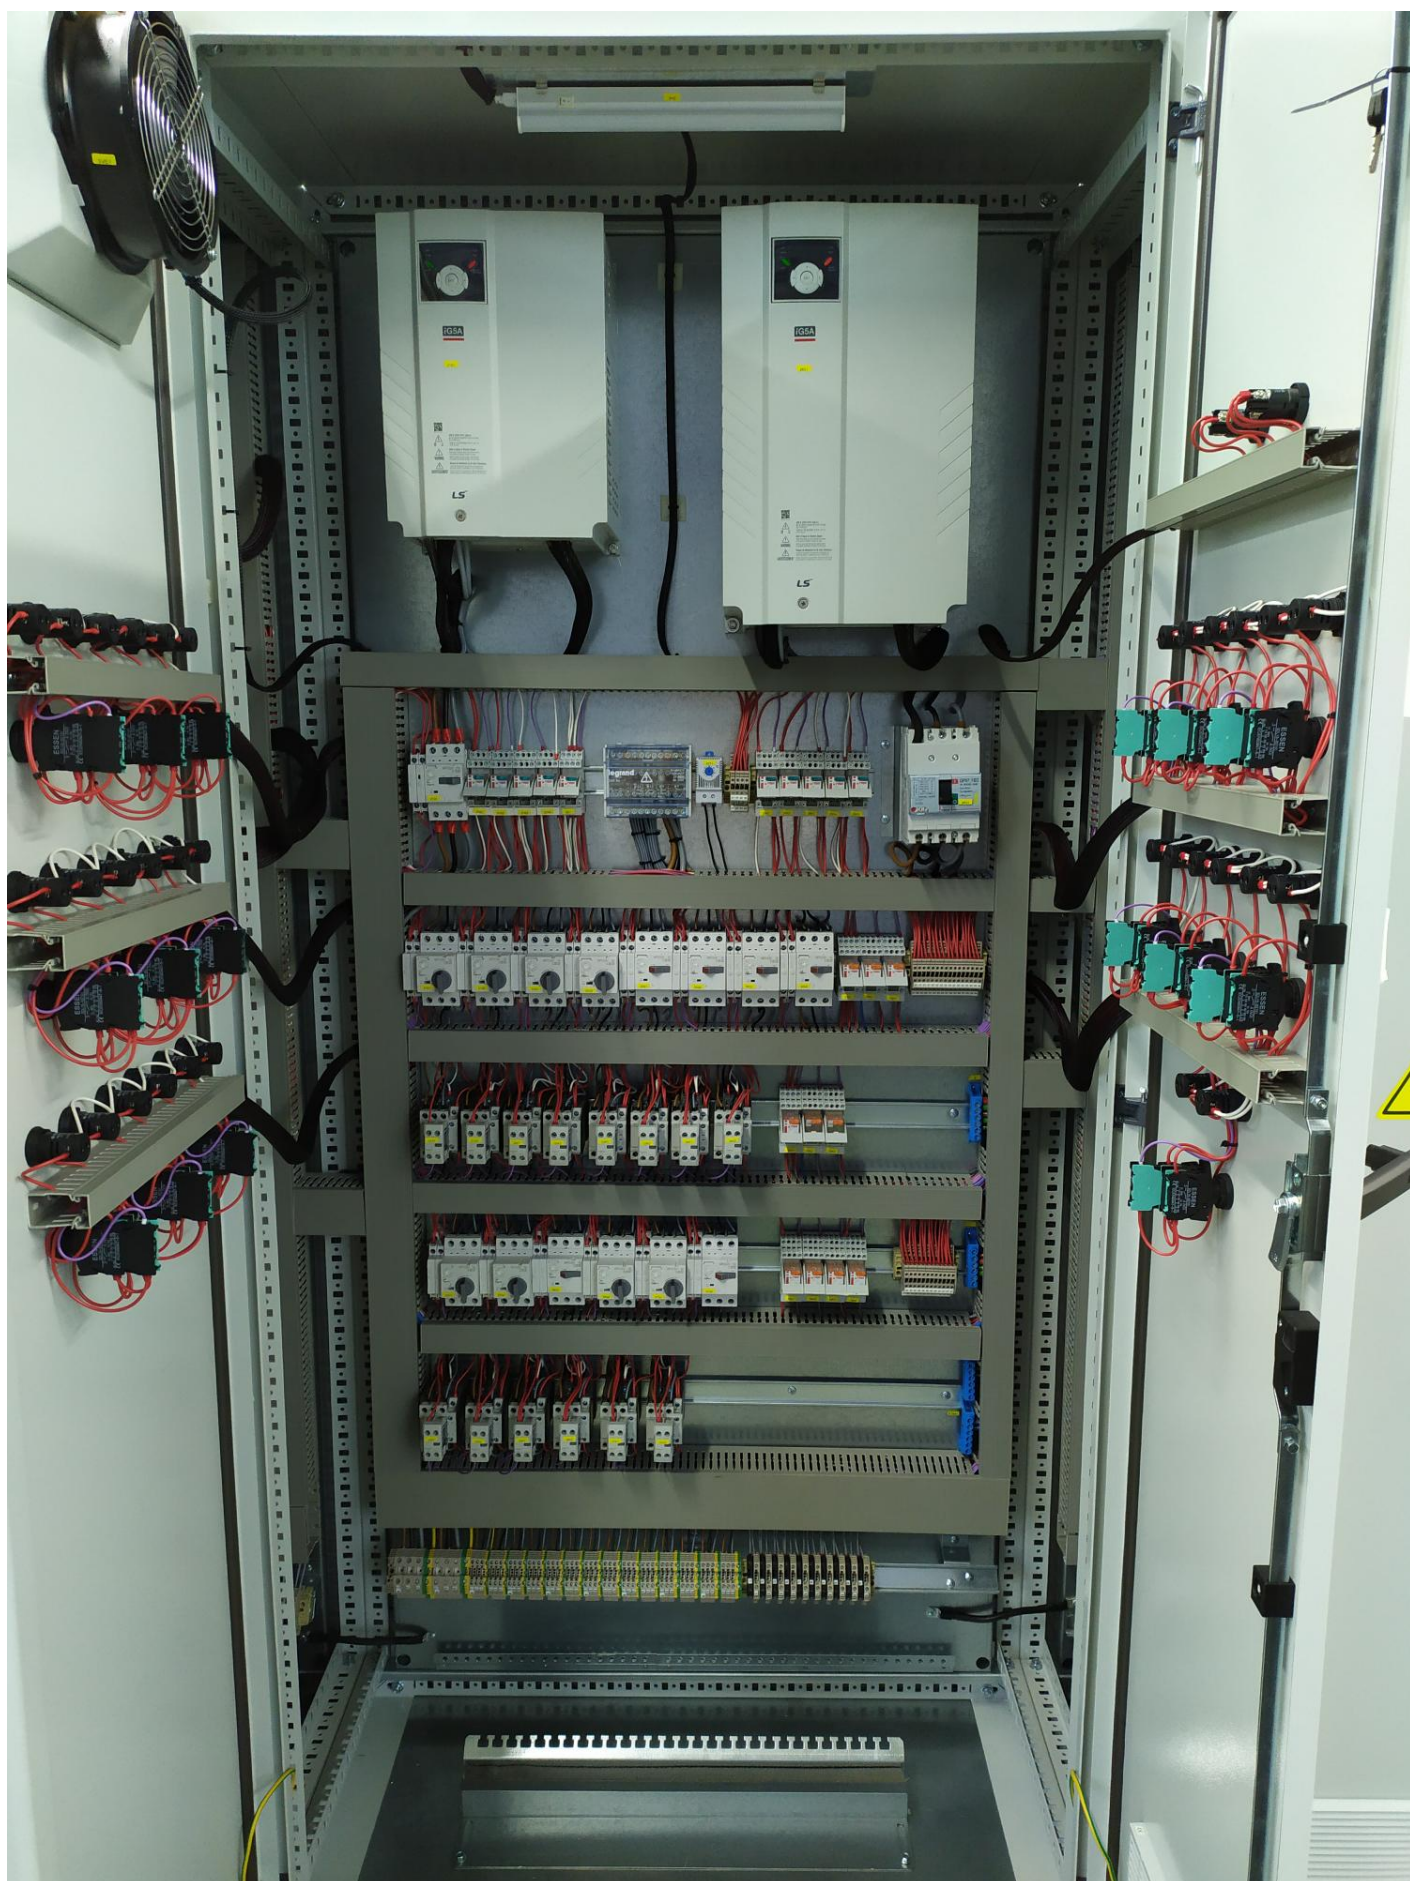

Inspection, testing and approval procedures for automation control panels, FAT procedures, PLC systems, VFD integration and power distribution assemblies.

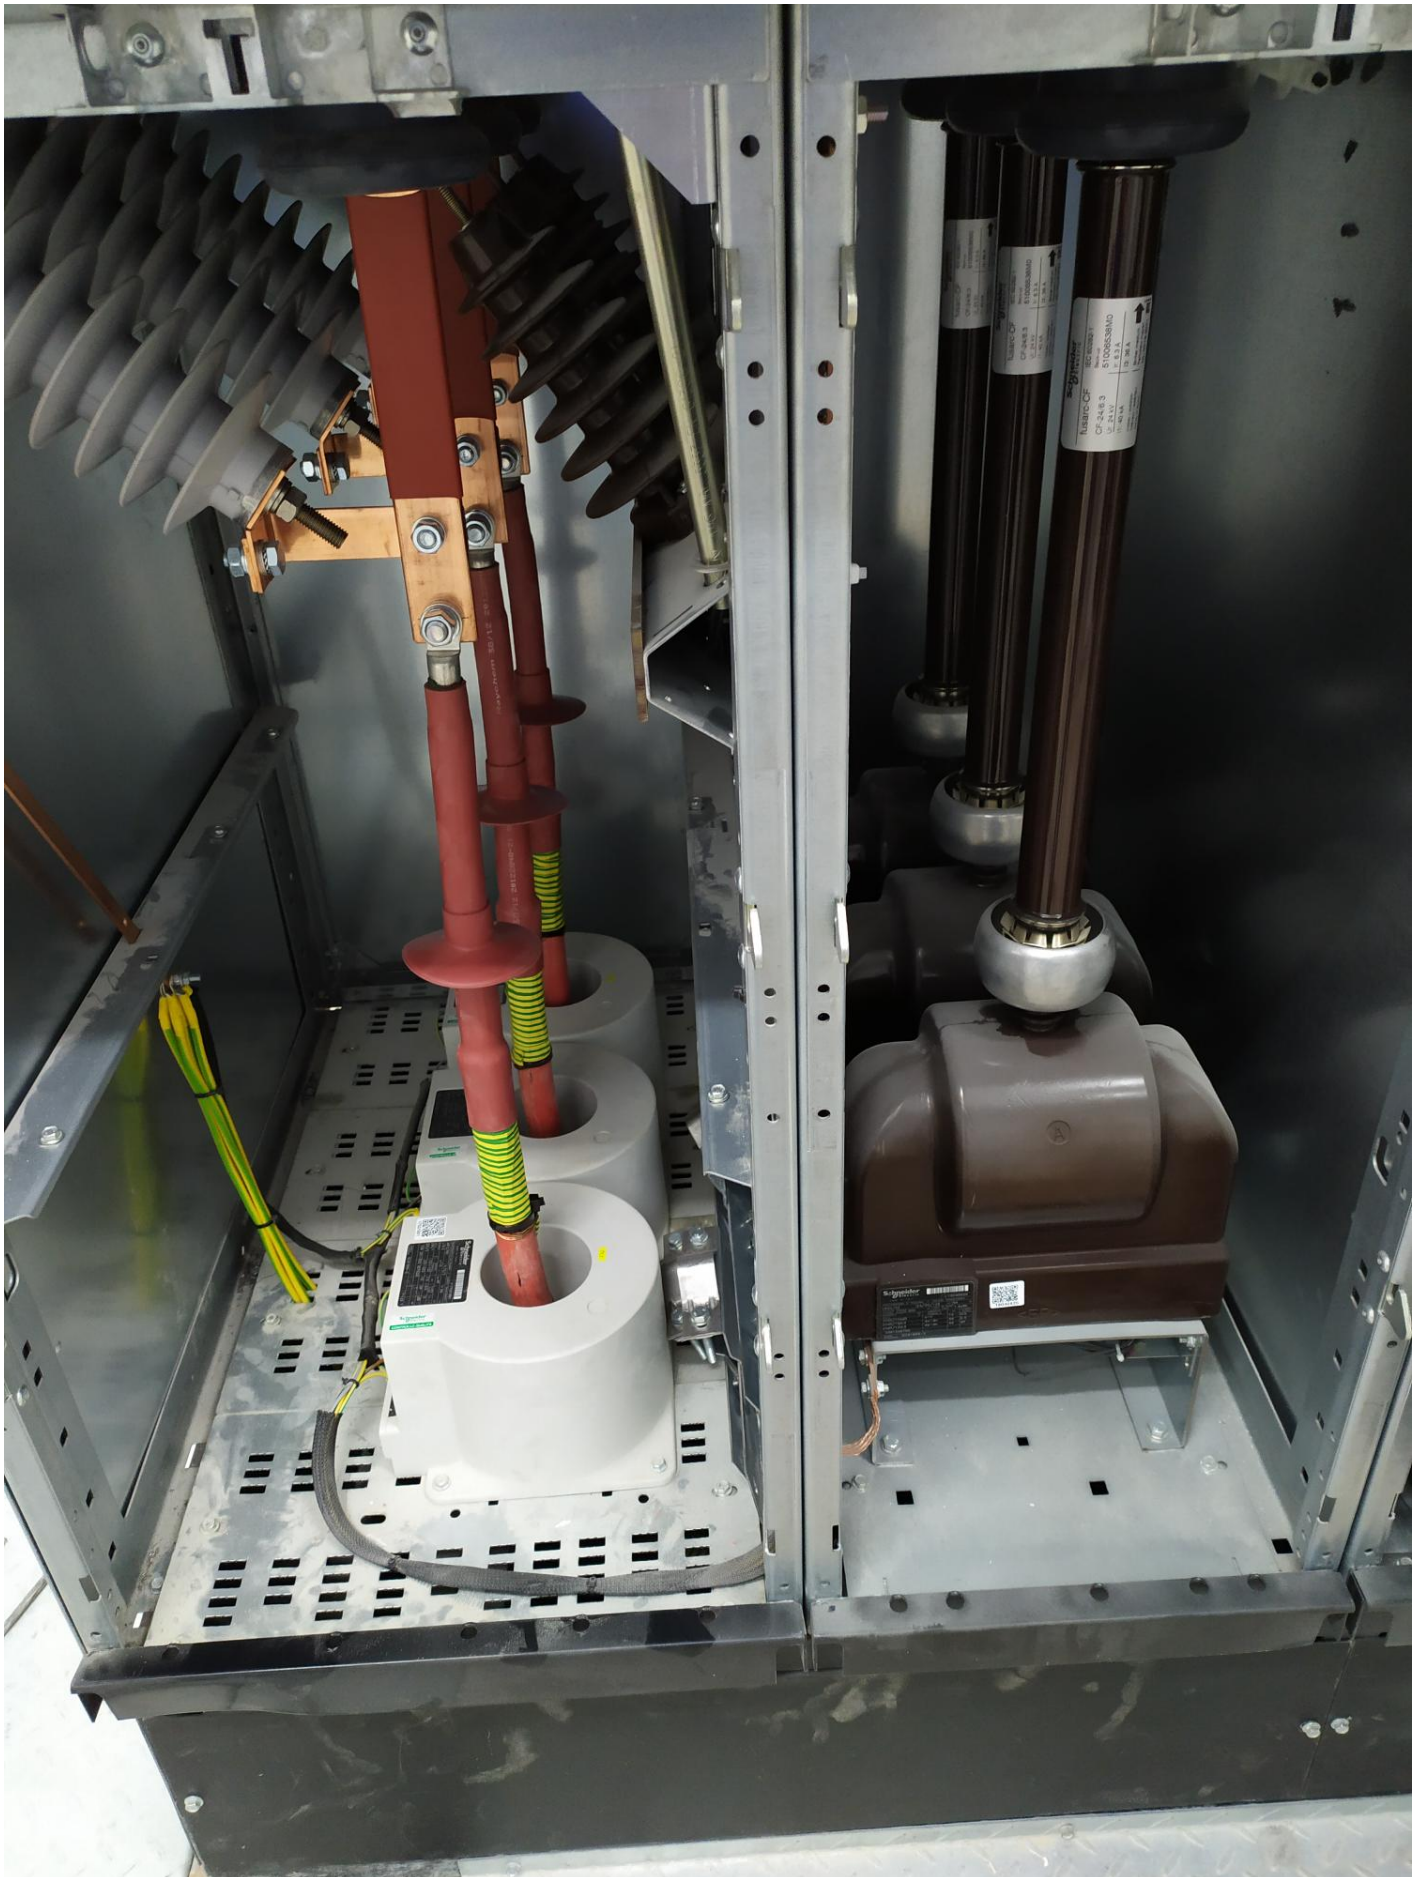

### 3. MV System

Correction, testing and approval procedures for MV switchgear systems and associated equipment.

# Revit MEP Design & Coordination

---

3D modeling, design development and coordination of MEP systems using Revit.
